

Backbone Strategy and Shared Performance Measures

The strategy below will appear on the UWGP Community Impact application as an option for organizations that act as a backbone for collaborative projects with programs implementing Thrive2027 strategies. Organizations choosing this option are required to choose and report one of the following Difference Made measures. They are also required to apply with at least one additional strategy.

Strategy: Provide backbone support to a Collaboration that has a common agenda, shared measurement and mutually reinforcing activities.

Difference Made Performance Measures

- #/% of organizations/members that align their practices, policies, or programs with shared priorities or goals
- #/% of organizations/members that utilize shared measures developed by the collective impact group or collaboration.
- #/% of partners that have a data sharing agreement
